40TH GLMA ANNUAL CONFERENCE ON LGBTQ HEALTH

OCTOBER 19-22, 2022

HILTON SAN FRANCISCO UNION SQUARE

www.glma.org
Founded in 1981, GLMA: Health Professionals Advancing LGBTQ+ Equality is the world’s oldest and largest association of lesbian, gay, bisexual, transgender, and queer (LGBTQ+) healthcare professionals and their allies. GLMA is committed to ensuring health equity for LGBTQ+ and all sexual and gender minority (SGM) individuals, and equality for LGBTQ+ / SGM health professionals in their work and learning environments. To achieve this mission, GLMA utilizes the scientific expertise of its diverse multidisciplinary membership to inform and drive advocacy, education, and research.

Now more than ever, we need to join together to build power! Join the movement for LGBTQ+ health equity today!

The GLMA Annual Conference on LGBTQ Health is the premier, interdisciplinary LGBTQ health conference and the world’s largest scientific gathering devoted to LGBTQ health issues and concerns.

GLMA’s Annual Conference educates practitioners and students—from across all health professions—about the unique health needs of LGBTQ individuals and families. The conference is a forum for discussion and exploration of how best to address these needs as well as the needs of LGBTQ health professionals and health profession students. GLMA’s Annual Conference on LGBTQ Health also reports on research into the health needs of LGBTQ people.

The GLMA Annual Conference on LGBTQ Health will focus on comprehensive and team-based approaches to healthcare and research that optimize the mental and physical wellbeing of LGBTQ people from all age cohorts, while taking into consideration the intersection of sexual orientation, gender identity, and age with other identities.

Local Action, Global Impact is an homage to the small-beginnings history of GLMA and much LGBTQ health advocacy. GLMA, originally founded in San Francisco where our 40th Annual Conference takes place, began as a small organization that has grown to be the world’s largest association of LGBTQ health professionals, with a national and international impact. Many strategies to improve LGBTQ health follow that same path, starting as small projects that lead to larger, long-lasting change.

This year, we celebrate the local, the small, the grassroots, and the mighty. To that end, GLMA aims to highlight speakers (including community leaders, researchers, policy makers, and clinicians, particularly those from the Bay Area) who are acting locally, but with a global impact, both by setting the tone for innovative and forward-thinking approaches to care, and by creating models that are replicable beyond the Bay’s footprint.

The health and safety of all GLMA Annual Conference participants is a top priority. GLMA will continue to monitor the latest public health data and local, state, and federal guidelines as we continuously re-evaluate and update our conference COVID-19 safety protocols. Given the rapidly evolving nature of the pandemic, the protocols will be updated in real time based on endemic rates, CDC guidance, and local policies.

At the time of printing, we require that all participants wear masks throughout the conference (except when food and/or beverages are served), attest to vaccination status at registration, and decline attendance following a positive test or presence of symptoms. For the most up-to-date protocols, please see the conference mobile app. Thank you for your cooperation.

BY BECOMING A MEMBER OF GLMA TODAY, YOU’LL RECEIVE:

- Professional networking with healthcare professionals of all disciplines
- Discounted Annual Conference Registration
- Complimentary ticket to the Annual Membership Lunch for conference registrants
- Recognition annually in the GLMA Report
- Discounted virtual events to earn continuing education credits
- Opportunities to contribute your expertise to support advocacy, education, and research

Get Involved with GLMA Today

GLMA members are invited to get involved with GLMA by participating in a committee! Put your professional expertise to use by contributing to the significant and impactful work accomplished by GLMA’s committees. GLMA committees harness the collective power of YOU to accomplish our mission to achieve LGBTQ+ health equity!

Take the Next Step in Your Career by Joining the Committee That Is Right for You!

EDUCATION COMMITTEE
• Develops webinar and Annual Conference programming and national guidelines for LGBTQ+ cultural competency curriculum
• Identifies additional opportunities for professional education that supports GLMA’s mission to improve LGBTQ+ health equity
Contact: educationcommittee@glma.org

EXTERNAL AFFAIRS COMMITTEE
• Develops relationships and alliances with other health organizations
• Strengthens GLMA’s connections to existing and new LGBTQ+ health organizations
Contact: externalaffairscommittee@glma.org

HEALTH PROFESSIONAL IN TRAINING COMMITTEE
• Identifies and organizes around the needs of health professional students and those in training programs at all levels and across all disciplines
• Addresses curricular reform, networking, mentorship, and programming at national conferences and symposia
Contact: hpticommittee@glma.org

MEMBERSHIP & DEVELOPMENT COMMITTEE
• Develops GLMA’s overall fundraising and membership recruitment strategy, including for Major Donors
• Seeks membership from healthcare professionals in all fields and through contacts with other professional associations
Contact: membershipcommittee@glma.org

POLICY & GOVERNMENT AFFAIRS COMMITTEE
• Works with the GLMA staff and Board of Directors to develop public policy and advocacy initiatives
• Participates in the planning and implementation of legislative, regulatory and/or administrative advocacy
Contact: policycommittee@glma.org

FINANCE COMMITTEE
• Reviews and monitors GLMA’s current financial picture
• Makes recommendations to ensure the organization’s financial stability and growth
Contact: financecommittee@glma.org

LESBIAN HEALTH FUND ADVISORY COMMITTEE
The mission of the Lesbian Health Fund is to improve the health of lesbians and sexual minority women (SMW) and their families through research.
• Develops and implements fundraising opportunities through events, corporate solicitation, and donor cultivation
• LHF is the only research fund in the world solely dedicated to the unique health needs of lesbians and sexual minority women
Contact: lhf@glma.org

We hope you will consider supporting GLMA with your skills, expertise, and energy by joining a committee! Visit www.glma.org/committees for more information about GLMA committees.
Excellence is for everyone.

Our commitment to equal opportunity, diversity, equity and inclusion is a part of our DNA. We are dedicated to fostering an environment where everyone — our employees and anyone who enters our doors — is treated fairly with respect.

RUSH hospitals have been recognized as a leader in LGBTQ+ Healthcare Equality in the Healthcare Equality Index (HEI) for 11 consecutive years, including 2022. Physicians at RUSH recognize the unique health care concerns and needs of the LGBTQ+ community and understand how to provide the best care possible in an inviting and open environment.

RUSH is a place for everyone. Learn more at joinrush.edu.
Be prepared. Your lung cancer can spread to your brain.

Rose, age 59, Texas

Smoking caused Rose's lung cancer. She had to move from the small town she loved to get the treatment she needed, including chemo, radiation and having part of her lung removed. Recently, her cancer spread to her brain. You can quit.

CALL 1-800-QUIT-NOW.

CONTINUING EDUCATION CREDIT INSTRUCTIONS

The GLMA Annual Conference on LGBTQ Health is proud to offer continuing education credits for a large portion of conference programming. GLMA is accredited by the Accreditation Council for Continuing Education (ACCME) to provide continuing medical education for physicians and by the California Board of Nursing for nursing CE. Information on continuing education for additional disciplines is available in the Conference mobile app.

HOW TO CLAIM CME/CE CREDITS:

• Pay $35 administrative fee for issuance of CME and CE certificates in GLMA’s conference registration portal
• Track your session attendance and take notes in the Conference mobile app
• Following the conference, complete the evaluation sent by GLMA

If you have any questions about this process, please find a GLMA staff member at the Conference Registration Desk or email us at annualconference@glma.org.

Please note that certificates will be emailed to participants only once conference evaluations are completed and the administrative fee is paid.

YOU’VE GOT THIS.
(And we’ve got you.)

Nursing is a high-demand, 24-7 job, and in the face of limitless challenges, your vision for the future includes one where you make a difference in the lives of patients. AWHONN is here to help you figure out your next steps, and as an organization that sets the standards for care in maternal and reproductive health, you can count on us to be there when you need us most.

THANK YOU TO OUR GLMA PEER-REVIEW COMMITTEE!

GLMA would like to thank our Peer-Review Committee, San Francisco partners, and the many volunteers who have worked hard to make the 40th GLMA Annual Conference on LGBTQ Health a success! We are grateful for their service and commitment to helping GLMA achieve our mission of LGBTQ health equity through this important educational programming.

2022 GLMA ANNUAL CONFERENCE PEER-REVIEW COMMITTEE:

• Jonathan Baker, MPAS, PA-C
• Mark P Behar, PA-C

Cedars-Sinai has been named in the 2022-23 issue of America’s Best Hospitals by U.S. News & World Report, as #2 among the finest 5,000 medical centers in the nation. Since its beginning in 1902, Cedars-Sinai has evolved to meet the medical needs of one of the most diverse regions in the nation, continually setting new standards in quality and innovation for patient care, research, and community service. Today, Cedars-Sinai is widely known for its national leadership in transforming healthcare for the benefit of patients. Diversity is one of Los Angeles’ greatest strengths, and Cedars-Sinai must continually demonstrate our commitment to celebrating both our differences and our similarities to create an inclusive culture for all. Every patient is different, and Cedars-Sinai celebrates those differences and provides services to support our patients. From Spiritual Care, Interpretive Services and our Transgender Surgery and Health Program to Health Equity, benefit of patients. Diversity is one of Los Angeles’s greatest strengths, and Cedars-Sinai must continually demonstrate our commitment to celebrating both our differences and our similarities to create an inclusive culture for all. Every patient is different, and Cedars-Sinai celebrates those differences and provides services to support our patients. From Spiritual Care, Interpretive Services and our Transgender Surgery and Health Program to Health Equity.

The Centers for Medicare & Medicaid Services Office of Minority Health (CMS OMH) is one of eight offices of minority health within the U.S. Department of Health and Human Services (HHS). CMS OMH works with local and federal partners to eliminate health disparities while improving the health of people from all minority populations, including members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality.

Compassion & Choices envisions a society that affirms life and accepts the inevitability of death, embraces expanded options for compassionate dying, and empowers everyone to choose end-of-life care that reflects their values, priorities, and beliefs. Compassion & Choices is proud of our historic relationship with the LGBTQ+ community that spans decades. Many LGBTQ+ activists were early advocates for expanded end-of-life care throughout the world. We recognize that the end of life can be more difficult for LGBTQ+ people and their families due to continued discrimination and under-representation of LGBTQ+ relationships. That’s why we create resources and conduct outreach to the LGBTQ+ community. We live in a nation that is a beautiful mix of cultures, traditions, identities, and faiths. What is right is ensuring that all people have the resources and tools they need to plan for an end-of-life experience that aligns with their values, priorities and beliefs. That’s why we work in communities, state legislatures, Congress, courts, and medical settings across the nation to ensure everyone has access to proper care. Doctors for Dignity is a community of physicians and nurses across the country speaking out in support for a full range of options at the end of life, including medical aid in dying. We advocate to reduce end-of-life disparities and bring the voice of medicine to public policy debates. Visit CompassionAndChoices.org to learn more and access dozens of free resources.

The Department of Veterans Affairs, National Cemetery Administration (NCA) operates 155 national cemeteries and 34 soldiers’ lots and monument sites in 42 states and Puerto Rico. More than 4 million Americans, including Veterans of every war and conflict, are buried in our national cemeteries. NCA also provides grants to establish, expand, improve and maintain 121 Veterans cemeteries in 48 states and territories including tribal trust lands, Guam, and Saipan. Veterans buried in private cemeteries still may receive a headstone, marker or medallion to commemorate their service. NCA has honored more than 361,892 Veterans and their loved ones with memorial benefits in national, state, tribal and private cemeteries. NCA provides the gravesite, grave liner, opening and closing of the grave, government headstone or marker, U.S. burial flag, Presidential Memorial Certificate and perpetual care of the gravesite at no cost to the family. Military honors are also available (at no cost) at the family request via the Department of Defense. Family members can also commemorate a Veteran’s service at our Veterans Legacy Memorial website, www.vvm.cen.va.gov.

Every day, more than 110 people in the United States are killed with guns. The Everytown for Gun Safety Support Fund is the education, research, and litigation arm of Everytown for Gun Safety, the largest gun violence prevention organization in the country. We build awareness about the complexities of gun violence in America so that every person—policymakers, volunteers, cultural influencers, business leaders, and more—can learn about the issues and become part of the solutions.

The HRC Foundation—a tax-exempt 501(c)(3) organization—envisions a world where all LGBTQ+ people can participate fully in the systems that shape our daily lives. Through public education, research, and policy and practice change, the Foundation’s impact can be felt in schools, on factory floors and corporate suites, and in places of worship. It touches LGBTQ+ lives from childhood through end-of-life, of people of all races, gender identities, religious beliefs, in big cities and small towns, in the United States and across the globe. HRC Foundation’s Health & Aging Program works to inform and transform the policies, practices and culture of the healthcare industry and long-term care communities to better serve their LGBTQ+ patients, residents and employees.

Headquartered in Baltimore, Maryland, Johns Hopkins Medicine unites physicians and scientists of the Johns Hopkins University School of Medicine with organizations, health professionals and facilities of The Johns Hopkins Hospital and Health System. Johns Hopkins Medicine has six academic and community hospitals, four suburban health care and surgery centers, over 40 patient care locations, a home care group and an international division, and it offers care in 46 states and 34 countries. Johns Hopkins Center for Transgender Health. The mission of Johns Hopkins Medicine is to improve the health of the community and the world by setting the standard of excellence in medical education, research and clinical care. Diverse and inclusive, Johns Hopkins Medicine educates medical students, scientists, health care professionals and the public, conducts biomedical research, and provides patient-centered medicine to prevent, diagnose and treat human illness.

Kroger Specialty Pharmacy optimizes patient outcomes by blending high-touch, compassionate care with specialized clinical knowledge to elevate medicine to public policy debates. To discover more, visit krogerspecialtypharmacy.com.

Novo Nordisk is a leading global healthcare company, founded in 1923 in Denmark, dedicated to supporting advances in the treatment of cardiovascular diseases through meaningful innovation and strategic partnerships.
Pfizer RxPathways connects eligible patients to assistance programs that offer insurance support, co-pay assistance, and medicines for free or at a savings. For more than 30 years, Pfizer has empowered patients in need with assistance and information, so they can get access to the Pfizer medicines prescribed by their doctor. To learn more, visit www.PfizerRxPathways.com to use our Program Finder, or call one of our Medicine Access Consultants today at 1-844-989-PATH (7284).

PRIDEnet is a project of Stanford University School of Medicine in partnership with the University of California, San Francisco. Together, they help PRIDEnet form a feedback loop of receiving community input to inform our practices and spreading messages out across diverse networks. PRIDEnet is a project of Stanford University School of Medicine in partnership with the University of California, San Francisco.

Reasons Eating Disorder Center in Los Angeles, CA provides comprehensive, personalized and gender-inclusive treatment programs for ages 10 and older. Reasons’ programs are designed to address the complexities of eating disorders and their intersection with anxiety, trauma, OCD, and substance abuse by providing each participant with a multidisciplinary team of professionals to assist in their process of healing. We offer our patients hope rooted in the belief that they are capable of living an authentic life of meaning and connectedness.

The California LGBTQ Health & Human Services Network is an LGBTQ-specific program of Health Access, bringing together more than 60 non-profit providers, community centers, and researchers to advocate collectively for state level policies and resources that will advance LGBTQ health. Founded in 2007, the Network provides coordinated leadership about LGBTQ health policy in a proactive, responsive manner that promotes health and well-being as part of the movement for LGBTQ equality, and ensures that there is a distinct LGBTQ voice in health policy decision-making venues.

Uberlube is a premium silicone-based lubricant designed to enhance intimacy, not get in the way. Always silky, never sticky. Uberlube is free of glycerine and parabens. FDA and CE registered. Uberlube is doctor recommended and sold world-wide. Free samples for medical professionals are available by emailing med@uberlube.com.

The University of Arizona College of Medicine-Phoenix’s mission is to inspire and train exemplary physicians, scientists, and leaders to advance health and medical care. We train residents and fellows to become leaders in patient care, research, and education. We are uniquely positioned to accelerate the biomedical and economic engines in Phoenix and the State by leveraging our vital relationships with key clinical and community partners. The college is partnered with nine clinical affiliates, anchored by Banner Health, our primary clinical partner since 2015. Faculty at the college conduct research focused on improving the health and well-being of Arizona and beyond. The college garners $6 million in grants, and offers dual-degree programs, including a Master of Public Health (MPH), Doctorate in Health Administration (MDA) and Doctorate in Philosophy (PhD). Our Clinical Translational Sciences PhD program welcomes applications from post-baccalaureate students who have earned a bachelor’s or master’s degree in a biological or health science discipline and from postgraduate students holding a terminal health sciences degree (e.g., MD, PharmD, DNP, DNP, etc.). Lastly, the college is the institutional sponsor of more than 25 Graduate Medical Education programs with more than 340 residents and fellows. The programs are based at Banner – University Medical Center Phoenix and include such fields as family medicine, surgery, OB/GYN, cardiology, neurology, psychiatry, and medical toxicology, among many others.

VA Office of Mental Health and Suicide Prevention Program (OMHSP): VA’s top clinical priority is Veteran suicide prevention. Veterans has a variety of important tools and resources, including the free, confidential Veterans Crisis Line, which connects Veterans in crisis and their families and friends with 24/7 support. Dial 988 then Press 1, chat online at VeteransCrisisLine.net, or text 838255.

As the only pharmaceutical company solely focused on HIV/AIDS, Viiv Healthcare takes a holistic approach to ending the HIV epidemic. We research, develop and deliver innovative medicines and solutions that make a difference to people living with or seeking to prevent HIV and AIDS.

Tony’s story is a part of a larger conversation that is happening across the country. The Tony fund is committed to working with...
JOIN THE NEW AND IMPROVED
LGBTQ+ HEALTHCARE DIRECTORY TODAY!

The LGBTQ+ Healthcare Directory is a free, searchable database of all kinds of doctors, medical professionals, and healthcare providers knowledgeable and affirming of the unique health needs of LGBTQ+ people in the USA and Canada. Together with LGBTQ+ health experts and community leaders, this invaluable resource has been updated with innovative search functionality, the highest standards of accessibility, and a new set of affirmations of commitment to equality for LGBTQ+ patients.

As a healthcare provider, you may already know about the unique health needs of the LGBTQ+ community or you may want to make your practice more welcoming and inclusive. You may identify as LGBTQ+ yourself or you may have experience with LGBTQ+ patients. What matters most is that you believe that everyone has the right to safe and affirming healthcare.

Join us today to help LGBTQ+ patients find healthcare providers like you!

HIV alone didn’t cause the clogged artery in my neck. Smoking with HIV did.

CALL 1-800-QUIT-NOW.

#CDCTips

1.577 pt

Brian had his HIV under control with medication. But smoking with HIV caused him to have serious health problems, including a stroke, a blood clot in his lungs and surgery on an artery in his neck. Smoking makes living with HIV much worse. You can quit.

CALL 1-800-QUIT-NOW.

40TH GLMA ANNUAL CONFERENCE ON LGBTQ HEALTH
OCTOBER 19-22, 2022 • SAN FRANCISCO • WWW.GLMA.ORG
The Centers for Medicare & Medicaid Services Office of Minority Health (CMS OMH) is one of eight offices of minority health within the U.S. Department of Health and Human Services (HHS). CMS OMH works with local and federal partners to eliminate health disparities while improving the health of people from all minority populations, including members of racial minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+); persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality.

**OUR MISSION**

CMS OMH will lead the advancement and integration of health equity in the development, evaluation, and implementation of CMS’s policies, programs, and partnerships.

**OUR VISION**

All those served by CMS have achieved their highest level of health and well-being, and we have eliminated disparities in health care quality and access.

**CMS FRAMEWORK FOR HEALTH EQUITY**

CMS OMH launched the CMS Framework for Health Equity to address health disparities as a foundational element across all our work—in every program and across every community. Using this framework to design, implement, and operationalize policies and programs to support health for all people served by our programs, eliminating avoidable differences in health outcomes experienced by people who are disadvantaged or underserved, and providing the care and support that our enrollees need to thrive.

**OUR WORK**

The Data Analysis Initiative provides useful information for targeting quality improvement activities and resources, monitoring health and drug plan performance, and advancing the development of culturally and linguistically appropriate quality improvement interventions and strategies.

Through its Rural Health Initiative, CMS OMH is developing programs and policies that ensure rural Americans have access to high quality care, support rural providers and not disadvantage them, address the unique economics of providing health care in rural America, and reduce unnecessary barriers in a stressed system to advance our commitment to improve health outcomes for Americans living in rural areas.

CMS OMH administers the Minority Research Grant Program, which supports researchers at minority-serving institutions that are validating how CMS can better meet the health care needs of racial and ethnic minorities, people with disabilities, sexual and gender minorities, and rural populations.

Health Equity Technical Assistance is available to health care organizations ready to systematically take action on health disparities. The program offers personalized coaching and resources on developing a health equity strategic plan, resources on improving care for the populations we represent, and rural populations; data collection and analysis; and help developing a language access plan.

Coverage to Care is an initiative to help people understand their health coverage and connect to the primary care and the preventive services that are right for them, so they can live a long and healthy life.
